

iBiz - Time-billing/project manager updated

Putney, VT. IGG Software, LLC has released v. 2.3 of iBiz, an intuitive time-billing and invoicing application with Address Book and iCal integration ([www.iggsoftware.com/ibiz](http://www.iggsoftware.com/ibiz)). iBiz was formerly known as IGG Software's "iWork". New features in iBiz 2.3 include a new client status column, client filtering, greatly improved iBank integration, improved contextual menus and several other enhancements.

iBiz 2.3 costs \$29.99 (download link [www.iggsoftware.com/ibiz/iBiz.dmg.bin](http://www.iggsoftware.com/ibiz/iBiz.dmg.bin))

iBiz Server/Client costs \$74.99 and additional client licenses cost \$24.99 (download link [www.iggsoftware.com/ibiz/iBizServer.dmg.bin](http://www.iggsoftware.com/ibiz/iBizServer.dmg.bin))

All of IGG Software's products come with a free 10 day trial period so you can "try before you buy".

IGG Software is committed to developing powerful, yet easy to use personal and business applications. Since its inception, IGG Software's products have been recognized in MacWorld, by Apple, in MacUser and many other prominent Macintosh publications. IGG Software, LLC was started by Dr. Ian Gillespie in 2002 to develop enterprise strength applications for everyday Mac users.
